What is On Demand Funding?

On Demand Funding is a supplemental settlement option that lets you settle and fund the payment transactions in your open batch directly to an eligible debit card or bank account. You can immediately access the funds to make purchases or pay bills. Make unlimited transfers per day, even on weekends and holidays with no added contractual requirements or additional monthly fee.

How much money can be transferred?

On Demand Funding supports up to \$50,000 per day in transfers. Eligibility and amounts vary based on your industry, your debit card issuer's limits, and other factors. It is not a loan with ongoing interest. You simply incur a one-time fee of 1.5% for the amount of money you transfer and settle from the open batch, along with the established transaction interchange or acceptance costs.

How do I get started?

Self-service enrollment is simple for business owners:

1. Log in to your payment's dashboard
2. Click the "On Demand Funding" button
3. Securely link your bank account or debit card
4. Start getting your money in minutes!
